

## Music Cabinet Loudspeaker

- Available in Black & White
- Quality Sound Reproduction
- 2 Way Enclosure
- Complete with Universal Mounting
- Variable Tapping Selection
- Integrated Volume Selector

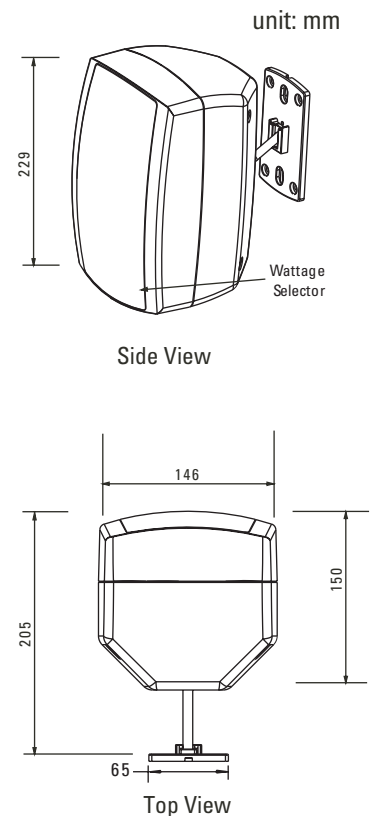

This durable 20 Watt Music Cabinet Loudspeaker incorporates a 2-way enclosure, a custom loaded 5" polypropylene coned low frequency drive unit and a neodymium high frequency tweeter matched with a passive crossover.

Designed for use in shops, clubs, themed environments, wine bars etc. This unit provides high quality sound reproduction from a compact and attractive injection moulded enclosure.

Available in black or white, 100 Volt line or 16 ohm versions, this unit is supplied complete with a universal mounting bracket which has a unique locking facility allowing mounting on the wall or ceiling with ease.

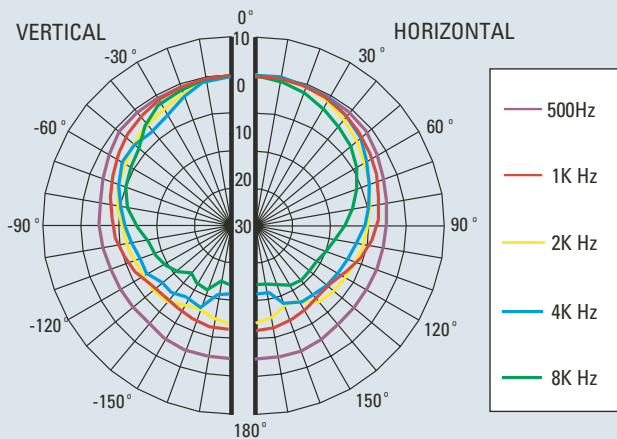

The JD20/T, 100 Volt Line version, has a variable tapping selection switch accessible from the front of the cabinet and can be adapted to comply with British and European Standards for voice alarm systems.
