

EVX-CLP-66 IP66 Weatherproof Call Button

- IP66 Weatherproof enclosure
- Ideal for showers
- Stainless steel front fascia
- Polycarbonate back box
- Blue call indication
- Flush or surface mounting
- BS8300 "Acknowledge" feature

The EVX-CLP-66 is a IP66 Weatherproof Call button recommended for showers and other wet areas where a standard pull cord may be unsuitable. The call button is finished in brushed stainless steel with a blue indicator for visual identification of activation. It is fully compatible with our EVX and Assist Call WC Alarm (EVX-ACA) equipment range.

For simplicity, all wiring is standard two core cables. The rear enclosure offers Five 20mm cable entries at the top, bottom, and side, with cable entry for the rear via a cut-out. A maximum number of 6 call buttons on a single line.
